Welcome to *Your Total Solution for Kindergarten*!

Building a strong foundation is an essential part of your child's success. *Your Total Solution* features a variety of activity pages that make learning fun, keeping your child engaged and entertained at the same time. These workbooks will help children meet important proficiency standards with activities that strengthen their basic skills, math, and reading.

Your Total Solution for Kindergarten is designed to be used with an adult's support. Your child will gain the most when you work together through the activities. Below are a few suggestions to help make the most of your learning time together:

- **Read the directions** out loud. Move your finger under the words as your child watches. As you come to words he or she recognizes, encourage your child to read along.
- **Explain the activities** in terms your child understands. Talk about the pictures and activities, and encourage your child to make up stories about the characters on each page. These conversations will both strengthen your child's confidence and build important language skills.
- **Provide support and encouragement** for your child. Work with your child at a pace that is comfortable for him or her. End your learning time when your child shows signs of tiring.

This book provides an outstanding educational experience and important learning tools to prepare your child for the future. *Your Total Solution for Kindergarten* offers hours of educational entertainment that will make your child want to come back for more!
